

Olansi Healthcare Co.,Ltd

OLANSI

OEM ODM Manufacturer Over 15 Years Experience

- / Air Purifiers
- / Water Purifiers
- / Humidifier
- / Hydrogen Water Makers
- / Hydrogen Breathing Machine
- / Disinfectant Generators
- / Fruit and Vegetable Washer
- / Beauty Care Devices
- / Other Health Care Products

www.olansigroup.com

Olansi has founded in 2009, that is Focus on research and development, design, production and sales of health and environmental protection equipment of household air purification, water purifiers, and hydrogen-rich water series.

Adhering to the concept of science and technology, Olansi has a group of research and development teams dedicated to environmental research, Most of them have above 10 years experience in home appliance industry R&D, and worked in LG, Midea, Haier and other front-line home appliance enterprises.

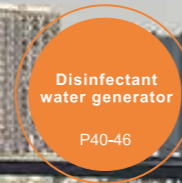

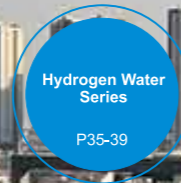

Our factory has advanced foreign production equipment and strict quality management system.

It has standard operating procedures and inspection standards from materials to finished products, air purification testing room with national standard, independent injection molding workshop, international advanced production equipment, and promotes industry development with leading scientific research technology.

The company's annual output reaches 3.5 million units and is sold to 30 countries and regions around the world. The product quality has been recognized by the majority of users and is widely used in civil, medical and military fields.

Olansi has become an OEM & ODM expert in health industry equipment, providing OEM & ODM services to hundreds of healthy direct selling companies, including the strongest first-line brand in the industry, creating new home air purification and water purifier industry height.

Olansi History

- 2009 Olansi's first year, Water purifier put into production
Olansi launch water purifier production line
- 2010 Olansi lanuch air purifier production line
- 2011 Olansi got ISO9001 audit
All of Olansi air purifier got CE CB ROHS ERP CQC certificate
- 2013 Olansi launch hydrogen water production line
All of hydrogen water got FDA,CE certificate
- 2014 Olansi cooperated with Haier,Westinghouse,Cooks,TIENS,AKIRA,Webber etc
Olansi technical improvement,use H13&H14 filters;Achieved products patents;
Imported equipment from overseas.
- 2015 Establish injection molding workshop, full industrial chain operation,
Introduce ERP system to realize digital marketing
Establish a product evaluation center
- 2016 The filter production line was officially put into operation
Hydrogen-rich water machine products are put into production
The company won the high-tech enterprise certification
- 2017 The construction of the Olans Health Industry Park was officially started.
24,000 square meters of land, expanding scale
- 2018 Olansi new factory
- 2019 2019 is the key year of quality in Olansi.
The quality personnel has grown from a dozen people to 35 people.

CERTIFICATES

Our factory has passed **BSCI** Audit and **ISO**.

***90** patent certificates in air purifier and hydrogen water.

- *All of hydrogen water has passed **FDA** certificate
- *All of our air purifier has passed **CE CB ROHS CQC ERP** certificates

Our factory won high-technology enterprises in 2016, and certificate number is GR201644000718. Four products were identified as high-tech products. Powerful suction filter ultra quiet air purifier. Household multifunctional negative ion air purifier. New easy-to-install multi-layer filter air purifier. Low carbon, environmentally friendly and efficient water purifier.

*High-tech enterprises

OEM ODM Advantages

The air purifier R&D director, Mr Chen xueming, Bachelor degree, Graduate from WUT university, Major in Mold design and manufacturing, with over **15** years experiences in air purifier field. He has successfully developed Olansi K09, K15 series air purifier, these 2 models air purifier honored very good reputation from the China and overseas markets.

COMPANY STRENGTH

There are three scientific research platforms in the R&D center. They are focusing on the technical research of air purification, which aims at purifying the air duct, cleaning materials and purifying efficiency of the filter screen, and applying advanced and mature technology to the home air purifier.

There are **15** professional researchers in the R&D center, 3 people with senior professional titles with the rank of a professor, 2 doctors, 2 masters and 10 people with a bachelor's degree or above. More than 70% of them have intermediate or above technical titles. Most of them have above **10** years experience in the home appliance industry R&D and worked in LG, Midea, Haier and other front-line home appliance enterprises.

OEM ODM Advantages

▶ INJECTON MOLDING FACTORY

Olansi injection moldign factory using the injection molding machine with leading technology and stable performance from famous brand HAITIAN, daily capacity of injection molding products is 50 thousand pcs with **12** units injection machines,use the ABS raw materials from LG in Korea.

*Injection workshop

▶ OLANSI DUST-FREE ASSEMBLY FACTORY

Air Purifier Workshop

Air Purifier Workshop

Water Filter Factory

Mold Factory

Four larger air purifier manufacturing bases with dust-free environment, **4** automatic production line ,air purifier daily capacity of **2000** sets/day.

OEM ODM Advantages

▶ OLANSI ECALUATIN CENTER

Olansi evaluation center is the product research and performance evaluation platform that build by Olansi with a fortune costs and there are more than **100** units equipment. Product testing ability conforms to the standard authoritative testing institutions and guarantee product quality and performance.

Large Flux Water Purifier-OLS-W4/W6

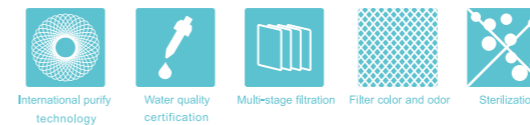

Water Purifier

Reverse Osmosis Technology

*Remove Heavy Metal

Quick connection to the filter core structure design

No tools required, replace yourself. The filter can be recommended to be replaced with a gentle twist, without the need for a professional master to come to the door.

Performance Index

Rated power	< 60W	Water Flow	1.0L/min
Rated Power	85W	Rated net water	6000L
Filter	PAC-RO-AC	Purified Water	Direct Drinking
Product Size	245x245x380mm		
	Polypropylene folding PP cotton + carbon rod + post-carbon rod RO reverse osmotic membrane Mineral filter core(optional)		

Water Purifier-W12

Reverse Osmosis Technology

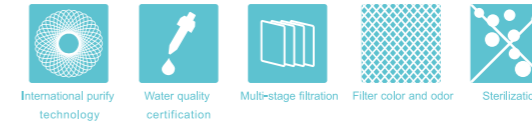

Performance Index

Rated Voltage	220V~50Hz	Hot Water Flow	18L/h($\geq 90^{\circ}\text{C}$)
Rated Power	2200W	N.W	7.3kg
Raw Water Tank	3L	Waste Water Tank	1L
Product Size	450*200*387mm	Outer Casing Material	ABS
Rated Water Purification	2000L	Quota Frequency	50HZ
Initial Water Purification Quota	130ml/min		

Water Purifier-W16

Hot Water Any As You Like

Performance Index

Rated Voltage	220V~50Hz	Health Water Flow	7.8L/h
Rated Power	2200W	N.W	7.3kg
Raw Water Tank	3L	Applicable Water Temperature	4-38 $^{\circ}\text{C}$
Product Size	450*200*387mm	Outer Casing Material	ABS
Rated Water Purification	2000L	Initial Water Purification Quota	130ml/min
Hot Water Capacity	18L/H ($\geq 90^{\circ}\text{C}$)	Working Pressure	0.4~0.6MPA

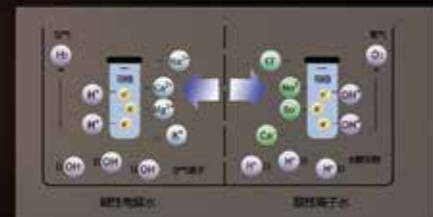

Hydrogen+RO

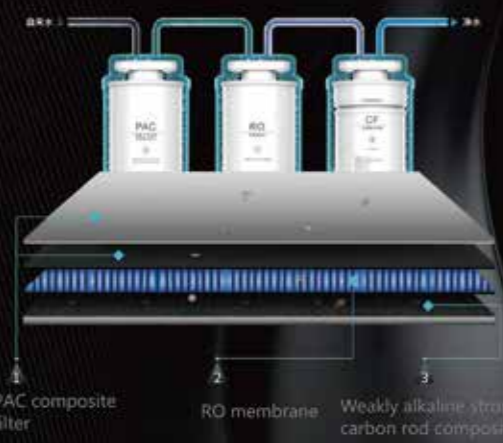

The fourth generation of microbubble continuous electrolysis technology

Make micro-bubble hydrogen-rich water, quickly electrolyze the water into hydrogen-rich water, so that the water evenly wraps hydrogen molecules, promotes the stable combination of hydrogen and water, and produces high-concentration bubble hydrogen-rich water

3-stage filter, 4 levels filtration

Filter out heavy metals and retain beneficial minerals

① PAC composite filter

Filters out large particles of pollutants such as sediment, rust, colloids, and absorbs different colors and odors, residual chlorine and other bacteria, microorganisms, scale and other tiny impurities.

② 200G large flux RO membrane

Filter out large particles of pollutants such as sediment, rust, colloid, etc., absorb different colors and odors, residual chlorine, etc.

③ Weakly alkaline strontium-rich carbon rod composite filter

It can further absorb different colors and odors, increase strontium and other minerals, enhance the taste of water, and make the water sweet and delicious.

Product Schematic

Hydrogen RO Water Purifier-W19

W19

W19 Pro

Product name	Hydrogen RO water dispenser	Hydrogen RO water dispenser
Installs way	Install-fess	Install-fess
Dimensions(mm)	460*240*432mm	460*240*432mm
Product weight	10.6KG/12.3KG	10.6KG/12.3KG
Hydrogen content	1300 ppb	2500 ppb
Water Temperature	Normal, Milk, Cold, Coffee, Tea, Hot	Normal, Milk, Honey, Coffee, Tea, Hot
Filter change reminder	Including.	Including.
Rated power	2200W	2200W
Water flow	30L/H	30L/H
Rated net water volume	2000L	2000L
Original tank capacity	6L	6L
Built-In Filters	Built-In Filters	Built-In Filters
Step1.	PAC composite filter	PAC composite filter
Step2.	200G large flux RO membrane	200G large flux RO membrane
Step3.	Carbon Rod composite filter	Carbon Rod composite filter
Loading QTY	256/520/604 PCS	256/520/604 PCS

W19G

W19 Pro-G

Product name	Hydrogen RO water dispenserl	Hydrogen RO water dispenserl
Install Way	Connect with tap water	Connect with tap water
Dimensions(mm)	345x240x430mm	345x240x430mm
Specification and function	Same as above, W19	Same as above, W19Pro
Loading QTY	368/747/837 PCS	368/747/837 PCS

Hydrogen RO Water Purifier-**W20**

Reverse Osmosis Technology

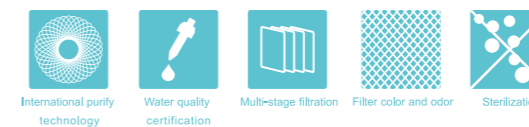

*Electrolysis Hydrogen Water

Performance Index

Rated Voltage	220V~50Hz	Waste water tank capacity	2.5L
Rated Power	2100W	Water discharge	30L/h
Raw Water Tank	6L	Applicable Water Temperature	4-38°C
Product Size	460*240*432mm	Outer Casing Material	ABS
Rated Water Purification	2000L	Working Pressure	0.4~0.6MPA
Hot Water Capacity	18L/H (≥90°C)		

Hydrogen RO Water Purifier-**W22 Pro**

Performance Index

Rated net water	2000L	Power consumption	0.1kw-h/24h
Water production flow	30L/h	Original water tank capacity	6L
Nominal voltage/frequency	220V~/50Hz	Waste water tank capacity	2.5L
Applicable water temperature	4-38 °C	Rated power	2200w
Applicable water source	Municipal tap water	Hot water production capacity	18L/H(≥90°C)
N.W	10.7kg	Working pressure	0.4~0.6MPa
Housing material	ABS	Product size	475x240x430mm
Cartridge	Step1.PAC composite cartridge Step2.200G reverse osmosis membrane cartridge Step3.Natural trace mineralised carbon rod cartridge		

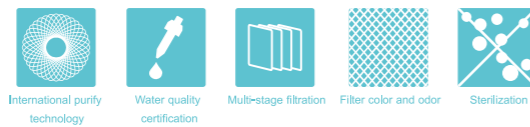

Hydrogen RO Water Purifier-**W25**

Reverse Osmosis Technology

*Electrolysis Hydrogen Water

Performance Index

Rated Voltage	220V~50Hz	Waste water tank capacity	2.5L
Rated Power	2200W	Water discharge	30L/h
Raw Water Tank	6L	Applicable Water Temperature	4-38°C
Product Size	475*240*430mm	Outer Casing Material	ABS
Rated Water Purification	2000L	Working Pressure	0.4~0.6MPA
Hot Water Capacity	18L/H (≥90°C)
